

# Getting started with Logitech® Keyboard Case for iPad® 2

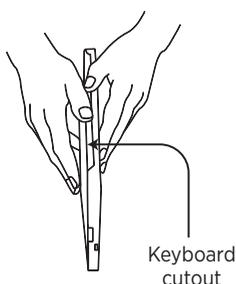

## Separating

1. Place the Logitech® Keyboard Case vertically on a non-slip surface.

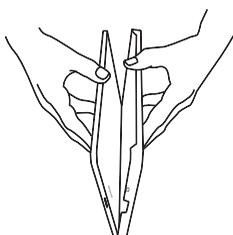

2. Using two hands, place one hand on each side of the Keyboard Case, with thumbs situated just above the side with keyboard cutout.

\* Make sure the 30-pin port is aligned with the cutout when closing.

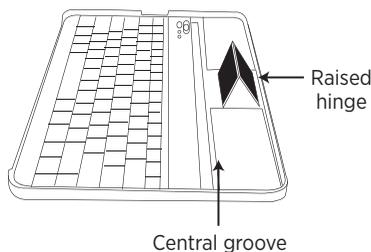

3. Secure the Keyboard Case with one thumb and the iPad® 2 with your other thumb. Apply slight downward pressure to iPad 2 and separate.

## Positioning

1. Lift hinge and lock into place by sliding tab back into locking slots and applying slight pressure.
2. Place iPad 2 (either in portrait or landscape mode) into central groove, and rest against raised hinge.

## Powering on and pairing your Keyboard Case

The Keyboard Case's Bluetooth keyboard should only need to pair to your iPad 2 once as follows:

1. On the Keyboard Case, slide the power button on. The red status light will illuminate for four seconds and then turn off to save power. Your Keyboard Case is still on.
2. Press the Connect button.

3. On the iPad 2, select: Settings > General > Bluetooth > On.
4. The status light will flash on Keyboard Case and the iPad 2 will display "Logitech Keyboard Case" as an available device.
5. Select "Logitech Keyboard Case" on the iPad 2; the iPad 2 will display a code.

2. Flashes when pairing
3. Lights briefly when you turn on Keyboard Case, then turns off to save battery

## Battery

Keyboard Case's long-life battery lasts for several weeks of normal use. The Keyboard Case will go into sleep mode if left on and not being used; press any key and wait a second or two to bring it out of sleep mode.

The lithium-polymer battery in the Keyboard Case has no memory effect and may be charged whenever you wish.

When not in use for a prolonged period, it is recommended that you turn off the keyboard to lengthen battery life.

If the battery does not recharge after several attempts, it may be non-operational. Should this be the case, you will need to dispose of your device in accordance with the laws and regulations in your area that specify the proper disposal of non-functioning electronic devices. If there are no such laws or regulations, please dispose of your device in a waste bin for spent electronic gear.
